2. Cut apart vinyl "Life is Good" and place where desired. Follow package directions to apply vinyl words.
3. Apply labels using mod podge to adhere to the surface in desired location. Apply 1-2 coats of mod podge over the top of labels, for extra hold. Allow to dry completely between each layer.
4. Adhere cut corks in desired location to surface using hot glue.
5. Enjoy!

Note: Adhering vinyl lettering to a stretched canvas surface is more difficult than adhering it to a hard surface like wood or glass.
